PRICE LIST SPRING of 1928

Berry Plants, Ornamental Shrubs Fruit Trees, Evergreens, Etc.

BERT BAKER, Hoosick Falls, N.Y.

INTRODUCTION

Our Business—We have for several years been growing berry plants in a large way, shipping many of them in full carload lots and supplying many of the largest and most reputable Nurserymen with plants, they again selling them at greatly advanced prices. We have now added several acres of shrubs and evergreens to our nursery.

Location—We are located in the extreme eastern part of the state, among the foothills of the Adirondack Mountains, and only a few miles from either Vermont or Massachusetts. The main line of the Boston & Maine Railroad runs through our village. Our winters are very severe, thus making our stock much more hardy than those grown in warmer localities. Our soil varies from a gravel loam to muck, making it possible for us to grow the different varieties on the type of soil best adapted to their particular needs, thus producing large plants with a great abundance of fibrous roots.

Terms—Cash should accompany the order, or one-fourth when order is sent and balance before the order is shipped. Money may be sent any way that is most convenient to the sender. 6 will be given at 12 rates, 50 at 100 and 500 at 1000 rates. If plants are to be sent by Parcel Post add 15c per 100 for strawberries, 40c per 100 for raspberries and a proportionate amount for shrubs.

Guarantee—We guarantee our stock to be true to name, yet through mistake should any be sent that did not prove so, we will gladly return purchase price.

Substitution—In case we should be out of a variety ordered, we will not substitute unless so requested.

Free of Disease—We send a State Certificate of Inspection with each order.

References—Any Bank or Business House in Hoosick Falls, Bradstreet's Commercial Agency, and the leading Nurserymen of the U. S.

RASPBERRIES

Our raspberry plants were officially inspected twice during the growing season, and are certified as apparently free from Mosaic and other diseases.

We take the utmost care to have every plant true to name and can guarantee them to be such.

Cuthbert—The best known red, very productive of the highest quality of fruit. **\$1.00 per 25; \$2.75 per 100; \$20.00 per 1000.**

Herbert—Enormously productive, fruit larger but not quite firm as Cuthbert. Bush is more hardy and much more productive than Cuthbert, and is the most resistant to Mosaic of any of the commercial varieties of reds. **\$1.25 per 25; \$3.50 per 100; \$25.00 per 1000.**

Latham—A new variety from Minnesota, perfectly hardy and exceedingly productive of the very largest berries. We believe the Latham to be by far the most profitable red to grow commercially. Our fruiting field turned nearly \$1000.00 per acre last year, and they were all sold at wholesale. **\$1.50 per 25; \$4.50 per 100; \$35.00 per 1000.**

Victory—Having grown this variety for several years and not being able to see any difference between them and the Cuthbert, we are listing this year only the Cuthbert.

St. Regis—Does well with many producing abundant crops until heavy frosts, have never known the canes to winter kill. This is by far the best of the everbearing reds. **\$1.00 per 25; \$3.00 per 100; \$20.00 per 1000.**

Golden Queen—The leading yellow raspberry, excellent flavored. **Price same as Latham.**

Columbian Purple—The best purple and the most productive of all raspberries. Our plants are extra heavy rooted this year. **\$1.75 per 25; \$4.00 per 100; \$30.00 per 1000.**

Plum Farmer—The most satisfactory black raspberry. **Price same as St. Regis.**

Snyder Blackberry—Hardest and most productive blackberry in the North. **\$1.25 per 25; \$3.50 per 100; \$25.00 per 1000.**

Blowers—Not entirely hardy with us but far superior to Snyder where the winters are not quite so severe. **\$1.75 per 25; \$4.50 per 100; \$35.00 per 1000.**

Eldorado—Best for home use. **\$1.50 per 25; \$4.00 per 100.**

GRAPES, STRONG, 2 Yr., No 1 VINES

| | Each | Per 12 | Per 100 |
|-------------------------|------|--------|---------|
| Concord | 20c | \$1.75 | \$10.00 |

| Matrimony Vine, 2-3 ft..... | | 40c | |

EVERGREENS

All our evergreens are well shaped specimen trees and are dug with a ball of earth and wrapped in burlap. We have several varieties not listed. Where the distance is not too great, would be pleased to have you call and look at the growing stock.
